Featured Speaker:

Tony Boemi joined the Montreal Port Authority (MPA) as Vice-President, Growth and Development in May of 2008. Prior to joining the MPA, his entry into the Maritime industry dates back to 1975, when he first joined Canadian Pacific Ships (CP Ships).

His current responsibilities with the MPA include developing the commercial strategies in the sectors of containers, general cargo, liquid and dry bulk commodities, and the cruise sector, and oversees the Port of Montreal's representatives based in the USA, Europe, and Asia.

At the conference, Mr. Boemi will be speaking on Predictive Analysis, Blockchain and Smart Technology.
