The Illinois Chamber strives to provide the Illinois business community with timely information to ensure employers are up-to-date in all realms of business. Workers' Compensation is no different.

This confusing and often abused statute is one employers and their employees need to be familiar with to in order to stay in compliance. This conference is designed not only to inform, educate and assist employers on how to be in compliance, but also to show employers how to reduce their workers' comp costs in the process.
