

## ILLINOIS READY MIXED CONCRETE ASSOCIATION

IRMCA Members:

We had a very good IRMCA Board Meeting on March 9th in Springfield. The meeting was held in the Illinois State Library right across the street from the State Capitol. A lot was accomplished including a meeting with Sec. Randy Blankenhorn of IDOT who came to meet with our board. We adjourned to the Capitol with plans to meet and greet Senate and House leadership. However, they were called into Executive Session to discuss the current budget crisis and several of us attended the hearing. If they had turned the meeting over to our board, I am sure we could have given them some strong opinions and solutions to get it done! Attached are pics with some of our board in front of the Capitol, In Senator Leader Rodogno's office and "On the Rail" between the House and Senate Chamber.

IRMCA has great events and services coming together for you this year and the board is very engaged in the planning process.

Please don't hesitate to give the IRMCA office a call or email if Theron, John, JoAnn or I can be of any service to you. We are thankful for a steady flow of new members. Please help us continue to recruit and give us names and contact information and we will reach out for them to join. Our Technical Committee will be meeting in April. AJ Bimrose has agreed to Co-Chair with John Albinger. Theron has our Regional Promotion Groups coming together so watch our website for upcoming news and information.

Be sure to visit our website often as we are constantly adding new information you will want to know about.

Thank you and have a great, safe and busy Spring!
