

IRMCA would like to remind you to attend the seventh webinar in our **Free Promotion Webinar Series** which will be on May 5<sup>th</sup> at 12:00 PM CST and is titled **Concrete Overlays Over Existing Asphalt Parking Lots**. Register for this webinar to learn about concrete overlays so you can promote them in your area. Concrete Overlays are a great opportunity for you to increase the amount of concrete in your marketplace. Illinois has been a state that has been really excepting of concrete overlays from top to bottom of the state which makes this a much easier concept to promote for projects in your area.

These webinars are a great source of information for you to learn about new products and trends in our industry like Portland Limestone Cement and CarbonCure as well as increase your knowledge on the uses of Cement Slurry, Concrete Overlays, and Fibers in Concrete. IRMCA has reached out to 175 civil engineering companies across the state of IL to introduce them to IRMCA, inform them of our free engineering assistance program, and to invite them to attend our Promotion Webinar Series. This strategy of interacting and networking with civil engineering companies will help increase the amount of concrete in the State of Illinois. All our 12 webinars in the Promotion Webinar Series will be recorded and posted on our website on the webinar pages.

Title: Concrete Overlays Over Existing Asphalt Parking Lots

Speaker: Don A. Clem, PE (Colorado) Vice President Local Paving  
National Ready Mixed Concrete Association

Date and Time: May 5<sup>th</sup>, 2021 at 12:00 CST

**Webinar Description:**

The subject of fibers will be presented to develop your understanding of the product offerings available and how they can be applied in concrete. A comparison of different fiber types, applications, and limitations will be completed. This will include high and low the performance life of asphalt surfaced parking lots can be extended by placing a bonded concrete layer on top of the existing asphalt. This technique has been used for many years for highway, street, and parking lot pavements but still engineers and owners are unfamiliar with the process. This webinar will cover the publication entitled the Guide to Concrete Overlays of Asphalt Parking Lots and demonstrate the steps necessary to properly design and construct a concrete overlay.

**Learning Objectives:**

- Learn how to evaluate and assess an existing asphalt parking lot for a concrete overlay.
- Understand how to determine the thickness of concrete required to be placed over the asphalt.
- Learn the various construction techniques and how to determine the proper joint spacing.
- Discover which details and specification criteria are especially important for these projects.

IMPORTANT NOTE: TO ATTEND THE WEBINAR ON MAY 5<sup>th</sup> AT 12:00 PM CST, YOU WILL NEED TO CLICK ON THE LOGIN INFORMATION AT THE BOTTOM OF THE REGISTRATION CONFIRMATION EMAIL THAT YOU RECEIVE FROM EVENTBRITE. YOU CAN COPY AND PASTE THIS ZOOM WEBINAR LOGIN INFORMATION INTO YOUR CALENDAR.
