

IRMCA would like to invite you to attend the ninth webinar in our Free Promotion Webinar Series which will be on June 2nd at 12:00 PM CST titled **Concrete 101 – The Basics of Concrete**. This webinar will increase your knowledge of the different technologies being used in concrete mixes from fly ash to slag cement to Portland Limestone Cement. We will also discuss best practices for cylinder making and storing on jobsites. This webinar is great for people in sales, operations, quality control, and dispatch.

Title: Concrete 101 – The Basics of Concrete

Speaker: Theron Tobolski, Assistant Executive Director of Illinois Ready Mixed Concrete Association

Date and Time: June 2nd, 2021 at 12:00 PM CST

Webinar Description:

This webinar educates you on everything concrete from all the different materials that go into concrete like cement, fly ash, slag, portland limestone cement, admixtures, fibers, and aggregates. We also cover what causes different issues that can happen to concrete like cracking and scaling. Best practices for concrete like curing and sealing concrete and not exceeding the designed w/c is also discussed. What causes low cylinder breaks on a project is highlighted in this webinar. This is a webinar that every engineer who designs concrete should attend.

IMPORTANT NOTE: TO ATTEND THE WEBINAR ON JUNE 2nd AT 12:00 PM CST, YOU WILL NEED TO CLICK ON THE LOGIN INFORMATION AT THE BOTTOM OF THE REGISTRATION CONFIRMATION EMAIL THAT YOU RECEIVE FROM EVENTBRITE. YOU CAN COPY AND PASTE THIS ZOOM WEBINAR LOGIN INFORMATION INTO YOUR CALENDAR.
