

FULL-DEPTH RECLAMATION WITH CEMENT USING A READY MIXED CONCRETE TRUCK

IRMCA would like to invite you to attend the tenth webinar in our Free Promotion Webinar Series which will be on June 16th at 12:00 PM CST titled Full-Depth Reclamation with Cement or Cement Using a Ready Mixed Concrete Truck. IRMCA recently worked with IDOT and a committee of industry people to create and publish a special provision for the use of a cement slurry in a ready mixed truck for full depth reclamation. The webinar will help educate you on everything you need to know on using a cement slurry for Full Depth Reclamation. IRMCA is very hopeful that this becomes a new market for concrete producers in IL to supply material in their ready mix trucks too!!!!

Title:

Full-Depth Reclamation with Cement Using a Ready Mixed Concrete Truck

Speakers: Don A. Clem, PE (Colorado) Vice President Local Paving

National Ready Mixed Concrete Association

Jonathan Pease CEO/Founder, Rock Solid Stabilization and Reclamation

Date and Time: June 16th, 2021, at 12:00 PM CST

Webinar Description:

Full-Depth Reclamation is a method of pavement reconstruction that utilizes the existing asphalt, base, and subgrade material to produce a new stabilized base course for a chip seal, asphalt, or concrete wearing surface. It provides substantial savings over the conventional remove and replace construction option. This webinar includes the following learning objectives:

- Understand the definition of Full-Depth Reclamation
- Advantages of the FDR process
- How to determine the appropriate cement content target
- FDR construction process
- Cement slurry delivered in a ready mixed concrete truck

IMPORTANT NOTE: TO ATTEND THE WEBINAR ON JUNE 16th AT 12:00 PM CST, YOU WILL NEED TO CLICK ON THE LOGIN INFORMATION AT THE BOTTOM OF THE REGISTRATION CONFIRMATION EMAIL THAT YOU RECEIVE FROM EVENTBRITE. YOU CAN COPY AND PASTE THIS ZOOM WEBINAR LOGIN INFORMATION INTO YOUR CALENDAR.
