

SYSDYNE - March 2023

**Registered Yet? Join Us March 21 at 12:30 PM ET For Our Live Webinar:  
How Interoperability Changes the Game - Value Beyond Cloud-Native Technology**

Not all batch, dispatch and delivery management offerings are created equal. Terms like Cloud, Integrations, Service & Support, Moving Fast, Customer Experience, APIs, AI, Machine Learning, and more are words thrown around by technology vendors - but what does it all mean for you?

Hosts **Henry Lee** and **Jason Campbell** will walk through decoding the buzzwords and equip you with some important questions to ask so that you can make the most informed and right decisions for your company.

The banner features the SYSDYNE logo in the top left corner. The background is a light grey with a pattern of overlapping gears. The main text is centered and reads: 'HOW INTEROPERABILITY CHANGES THE GAME' in large, bold, black letters, followed by 'VALUE BEYOND CLOUD-NATIVE TECHNOLOGY' in smaller, bold, black letters. Below that, the date and time 'Tuesday, March 21 | 12:30 ET' are written in orange. In the bottom right corner, there is an orange button with the text 'REGISTER NOW' in white.

Want to learn more about the interoperability features of our **CloudBatch**, **ConcreteGO**, **iStrada**, and **SysdyneBI** solutions? **Email us now** to schedule a call.
