

Good Afternoon,

It is no secret that Concrete Producers are facing a driver shortage. Producers are constantly looking to not only hire but keep quality ready-mix drivers to help grow their business. Hiring more drivers is not always an easy task with stiff competition to find the best drivers. Concrete Producers have no choice but to rely heavily on optimizing turnaround times and driver performance.

[ConcreteGO](#) Cloud Dispatch can help you maximize driver productivity, this means you will deliver more concrete with the same number of drivers. One of the reports to help you identify areas of improvement is the Driver Production Trend report. Click here for more information on [Driver Production Trends](#)

We can schedule a call or a demo of ConcreteGO cloud dispatch at your convenience.

Best regards,

Patrick
