

MARCH: PAVING WEBINAR

Event Starts:

March 12, 2021

11:00AM –12:00PM EST

Please join us for the PCA/ACPA monthly paving webinar to share best practices and avenues to successful paving advocacy and promotion. The next webinar will take place Friday, March 12th, at 11 am ET.

This month's webinar will feature:

Brief overview of a new paper on a scientific investigation into concrete pavement durability. Researchers examine chemical reactions leading to concrete pavement damage from alkali-silica reaction (ASR) and freeze-thaw (FT).

Speaker: **Jeremy Gregory**, MIT CSHub

A discussion of improvements in technologies that make concrete pavements more competitive.

Speaker: **Rod Schneider**, GOMACO Corporation
