

SYSDYNE - April 2023

Sysdyne Technologies and HaulHub Technologies Announce Owners Link Integration Aimed at Increasing Accuracy and Trustworthiness of Project Material Records

New integration establishes bi-directional data flow to certify electronic project records will meet source record standards for federal aided projects.

Sysdyne Technologies, the Leading Cloud-Native Software Platform for Ready-Mix Concrete Producers and **HaulHub Technologies**, the Leading e-Construction Platform for Transportation Agencies announce the launch of *Owners Link*, a technical two-way integration between construction material point of sale systems and State Transportation Agency project portals.

Owners Link helps ensure a trustworthy source of data records that facilitate payments while also meeting federal statutes and regulations.
