

LEADING CLOUD SOFTWARE PROVIDER FOR THE CONCRETE INDUSTRY

Sysdyne to Provide SSO Throughout Cloud-Native Product Suite

SSO (single sign-on) is currently being implemented by our development team. Using SSO, a user is able to access a number of related, though independent, applications by using just one ID and password – this will soon be the case with each of our Cloud-native software systems.

Sysdyne's SSO will not only provide seamless integration of all Sysdyne solutions but will also easily support MFA and third-party authentication mechanisms like SAML or Azure Active Directory, which will allow our products to become truly enterprise-ready.

With SSO, our Cloud-Native suite will integrate seamlessly, enabling users to access data from ConcreteGO, iStrada, and Pioneer Cloud batch in real-time (with permission, of course).

LEARN MORE

Sysdyne Technologies is the leading Cloud software provider for the Concrete Ready Mix industry. Our goal is to help concrete producers leverage the latest in cloud technology to improve access to data for better decision-making and boost profitability. Sysdyne's fully integrated product suite includes Pioneer® [Cloud Batch](#), ConcreteGO® [Cloud Dispatch](#), and iStrada® [Cloud GPS/Truck tracking](#).

Please contact your regional Sysdyne representative for complete details by emailing sales@sysdynetechnologies.com or using our [LIVE CHAT](#)
