

Introduction

Welcome to your periodic email with an attached training short(s). These training shorts can improve safe work habits, productivity, and morale. The shorts cover a wide variety of work-related subjects to assist your organization in preventing injuries.

KIG Insider - **Attention Contractors, Building Owners, and anyone else.** In today's environment, having set limits and endorsement requirements in your contracts is a necessity. Verifying the limits and coverage requested is so important so your business doesn't end up at the short end of the stick when a gap in coverage is revealed at the time of a loss. The challenging part is it take valuable time out of your business day. Let us help you save time and increase efficiency as this platform is capable of doing the comparison of what you required vs. what you received and then highlights the deficiencies for handling. The RMC is a big help via COI Track! I would be happy to show you the how!

Interested in more? Contact Bridgett Purpich to see how we can help your business reduce losses, create a pro-active safety culture, and drive down the cost of doing business.
